

BEAUMONT^{Ltd}

H E A L T H C A R E

Lorraine Tonks has been a client of Beaumont Healthcare for two years and gets on well with Tess, her regular Beaumont carer.

Lorraine has a **calliper on her left leg** which makes it difficult to move around and wash by herself.

Lorraine receives regular visits from Tess every week. Tess helps Lorraine get washed, dressed and get some breakfast ready in the mornings.

Lorraine Tonks playing her piano. The care which Beaumont provides allows her to live in her own home.

Before leaving, Tess will also help Lorraine with laundry and get a plate and cutlery ready for a 'meals on wheels' service that provides Lorraine with meals for the rest of the day.

In the evening, Tess returns to help Lorraine get ready for bed and prompts her with her medication needs.

Lorraine said, "I would certainly recommend Beaumont to others. The care Beaumont provides gives me that extra independence that I enjoy having.

"I get on really well with my regular carer and, with her help, I am ready for the day.

"Beaumont's care allows me to stay on top of daily tasks and importantly, stay in my own home.

"I can visit friends, go to the hairdressers or spend time playing my piano, which I really enjoy."
